

# Prosun Solar & Haitai Solar

Prosun Solar's aim has always been to concentrate on representing and Distributing High Quality Brands.

Prosun has always looked at Products that have a Point of Difference and have been under represented in Australia.

Prosun has the Reputation of taking Brands to the next Level in that they become Household Names.

These are either unknown Brands in our Region or one's that have not had the Marketing and or support they have deserved or required.

## Haitai Solar

Haitai Solar is a leading Photovoltaic Company with production that exceeds 6 GW. Just like Prosun Solar, Haitai Solar's main aim since 2005 has been to introduce and expand the Technological Advancements of the Crystalline Cell via New Hi Tech Processes and Production.

Haitai Solar has created the Tarzan Series, a Crystalline Module using Plate Interconnection Technology.

The Tarzan Series Distributed by Prosun Solar will eliminate some pitfalls of Normal Crystalline Technology thus creating greater Efficiency, Eliminate Micro Cracking and reduce the Temperature coefficient which has plagued most Quality Modules.

Prosun Solar is thrilled to be associated and Distribute the Hi Tech Advancements to the Australian Public.

### Haitai Solar Company Highlights

- Since 2005
- Production of 6 GW
- New Hi Tech Processes
- Plate Interconnection

Haitai Solar – Tarzan Black HTM-TSA 345 M1

Haitai Solar - Tarzan Silver HTM-TSA 345 M1

- Ultra High Efficient Plate Interconnection
- Plate Coupling Technology
- 15% more Surface Area
- Temp P Max 0.244%
- Hot Spot Immunity
- Micro Crack Free
- LCOE – BOS
- Plate Interconnection
- 18 Year Product Warranty
- 30 Year Linear Output Warranty
- All black
- Anti - Aging Film
- Efficiency 19.92%
