

Prosun Solar & Recom

Prosun Solar's aim has always been to concentrate on representing and Distributing High Quality Brands.

Prosun has always looked at Products that have a Point of Difference and have been under represented in Australia.

Prosun has the Reputation of taking Brands to the next Level in that they become Household Names.

These are either unknown Brands in our Region or one's that have not had the Marketing and or support they have deserved or required.

Recom

Recom is the only European Solar Company Listed as Tier 1 on Bloomberg.

Established in 2007 Recom is the Largest PV Manufacturer in Europe.

Recom has a Global Presence via it's IPP enterprises and has a diverse pipeline of Utility Power Projects.

Recom has established itself as a Technologically Advanced Quality Manufacturer from it's own Facilities in Lannion France and Padua Italy.

Recom's Global reach is extensive with Large Scale Projects in Europe and North America and is currently reaching the Australian Market with a Distribution Agreement with Prosun Solar.

Prosun considers Recom Products as uppermost superior in Quality featuring unbelievable Temperature Coefficient Pmax of -0.244% with astonishingly good looks.

Prosun is Honoured to be partnered with such an amazing Company.
